Project Kage - Additional Features

55. Family/Team Sharing

Collaborative features for groups working toward shared goals:

- **Shared Goals**: Collective objectives with individual contributions
- **Role Assignment**: Designate responsibilities within shared goals
- **Progress Visibility**: Transparent view of everyone's advancement
- **Privacy Controls**: Granular sharing permissions
- **Group Scheduling**: Coordinated time blocking and planning
- **Accountability System**: Mutual support for habit consistency
- **Communication Tools**: Goal-specific messaging and updates
- **Celebration Sharing**: Joint recognition of achievements
- **Task Assignment**: Delegate activities to specific members
- **Shared Resources**: Common access to relevant materials
- **Household Management**: Special features for family coordination
- **Team Analytics**: Group-level insights and patterns

56. Health Tracking Integration

Connection with health monitoring systems for holistic tracking:

- **Device Connection**: Integration with wearable fitness trackers
- **Health App Sync**: Compatibility with Apple Health, Google Fit, etc.
- **Metric Import**: Bring health data into habit and goal tracking
- **Correlation Analysis**: Relationship between habits and health metrics
- **Workout Logging**: Record exercise directly or via integration
- **Sleep Data Access**: Incorporate rest quality into overall picture
- **Nutritional Tracking**: Basic food logging or external app connection
- **Vital Statistics**: Track key health indicators over time
- **Medication Management**: Reminders and tracking for prescriptions
- **Health Goal Setting**: Create objectives based on medical recommendations
- **Doctor Visit Preparation**: Compile relevant data for appointments
- **Privacy Protection**: Enhanced security for sensitive health information

57. Educational Content Library

Collection of learning resources about habits, goals, and personal development:

- **Article Collection**: Curated content on habit science and application
- **Video Tutorials**: Visual guides for key features and concepts
- **Mini-courses**: Structured learning about specific development areas
- **Expert Contributions**: Content from authorities in relevant fields
- **Interactive Guides**: Step-by-step walkthroughs with activities
- **Case Studies**: Real examples of successful habit formation
- **Research Summaries**: Accessible breakdowns of scientific studies
- **Concept Dictionary**: Clear explanations of important terms
- **Recommended Reading**: Suggestions for books and external resources
- **Content Filtering**: Organization by topic, format, and length
- **Personalized Recommendations**: Suggested content based on goals
- **Offline Access**: Download capability for later consumption

58. Offline Functionality

Comprehensive capability when internet connection is unavailable:

- **Data Caching**: Automatic storage of necessary information
- **Sync Queueing**: Changes saved for update when connection returns
- **Offline Mode Indicator**: Clear status of connection state
- **Essential Feature Preservation**: Core functions work without internet
- **Conflict Resolution**: Smart handling of changes made while offline
- **Storage Management**: Control over cached data amount
- **Manual Sync Option**: User-initiated synchronization
- **Reduced Data Mode**: Minimal download option for limited connections
- **Progress Protection**: Ensure no data or progress is lost
- **Media Pre-loading**: Optional download of content before disconnection
- **Notification Storage**: Hold alerts until connectivity resumes
- **Background Syncing**: Efficient update when connection restored

59. Data Export and Backup

Tools for securing and utilizing personal data:

- **Backup Automation**: Scheduled data preservation
- **Manual Export**: User-initiated data download

- **Format Options**: Multiple file types for exported data

- **Selective Export**: Choose specific data categories

- **Import Capability**: Restore from previous backups

- **Third-party Storage**: Save to cloud services

- **Local Backup**: Store copies on device

- **Encrypted Exports**: Security for sensitive information

- **Data Visualization Export**: Save charts and analyses

- **Print Formatting**: Optimized layouts for physical copies

- **Migration Support**: Move data between devices

- **Archive Access**: Retrieve historical data when needed

60. Premium Subscription Management

Systems for handling paid features and subscription services:

- **Plan Options**: Multiple subscription tiers with clear benefits

- **Family/Group Plans**: Shared access at discounted rates

- **Billing Management**: Easy payment and subscription controls

- **Feature Comparison**: Clear explanation of free vs. premium features

- **Trial Access**: Sample period for premium capabilities

- **Gift Options**: Purchase subscriptions for others

- **Account Management**: Update payment methods and preferences

- **Usage Statistics**: Track premium feature utilization

- **Subscription Reminders**: Notifications before renewal

- **Cancellation Process**: Straightforward option with feedback

- **Promotional Offers**: Special discounts for specific users

- **Granular Purchases**: A la carte options for selected features
